MediaEdge Partners with Courtroom 21 for Searchable Video Solutions

Provider of XML-based Video Technology and Multimedia Portals integrates Virage Technology into digital Courtroom of the Future

Williamsburg, VA and Baltimore, MD - May 22, 2001

MediaEdge, a leader in XML-based video solutions and multimedia portals announced today that they partnered with the Courtroom 21 Project from William & Mary Law School.

MediaEdge will provide the Courtroom 21 Project access to the latest searchable video technology from Virage, Inc.

"We believe that Virage's SmartEncode technology with our Virage Extensions Suite provides an excellent enhancement to the Courtroom 21 Project." says Sandy Stasko, Vice-President and Chief Technology Office of MediaEdge. "We will concentrate on providing an integrated, searchable, video-based court record."

About MediaEdge

MediaEdge was founded in 2000 and is a division of Exceptional Software Strategies, Inc. MediaEdge, as a systems integrator, specializes in searchable and streaming video, multimedia portals, corporate communications and distance learning for both government as well as commercial customers. For more information about MediaEdge, please visit <http://www.media-edge.com>. For more information about Exceptional Software Strategies, please visit <http://exceptionalsoftware.com>.

About the Courtroom 21 Project

The Courtroom 21 Project is a joint project of the College of William and Mary and the National Center for State Courts. Courtroom 21 is the most technologically advanced courtroom in the world. Courtroom 21 is located in the McGlothlin Courtroom of the College of William and Mary and is affiliated with the Court Technology Laboratory of the NCSC.

About Virage

Headquartered in San Mateo, CA, Virage is a leading provider of software products and application services that enable owners of video content to publish, manage and distribute their video assets over the Internet or corporate intranets. Virage Application Services provide content owners with the complete infrastructure for seamlessly integrating Internet-compliant video into their web sites. Virage VideoLogger and Video Application Server software set the standard for real-time indexing, publishing and distribution of video across the Internet and corporate intranets. Contact Virage at <http://www.virage.com> or (650) 573-3210.
